## **E-Zorg B.V. Has Expanded Its SpamExperts License and Joined the Volume Partner Program**

**Amsterdam, February 6th, 2017** - E-Zorg B.V., a Dutch company that provides a secure and reliable network and service for professionals to communicate with patients and each other in the healthcare industry, has expanded its SpamExperts license and joined the Volume Partner Program to protect their own and their clients' mail environment with cohesive email security solutions. A SpamExperts customer since 2012, E-Zorg B.V. has upgraded its license thanks to excellent results in both filtering accuracy and customer service. By continuing to use the SpamExperts Incoming Filtering, Outgoing Filtering and Email Archiving via the Local Cloud deployment, E-Zorg is assuring its providers and users that their sensitive data is protected from malicious and unwanted messages that might contain malware, viruses, ransomware, phishing attempts, and other such dangers.

"SpamExperts was recommended to us 5 years ago and we don't regret for a second going with them. We've been their customers since 2012 and, time and time again, we received awesome support and great services, all wrapped around an affordable price tag. Recently, we decided to upgrade our license to continue to protect our ever-growing pool of clients and users from highly dangerous ransomware and prevent any possible data leaks or security issues," notes Tom van Leeuwen, Networking and Security, E-Zorg.

"Back in 2012, we were delighted to hear from E-Zorg B.V. that we were recommended to them. With 5 years passing by, we've understood that we found yet another company that appreciates the importance of email security and realizes the risks of not employing cohesive software. Now, we are glad to welcome them to our Volume Partner Program as E-Zorg has upgraded its license and qualified for our elite partnership. This demonstrates the efficiency of our collaboration in protecting their network and we thank them for their loyalty and leaving us in charge of email security," concludes Sam Renkema, CEO SpamExperts.

More information on the implementation of the SpamExperts solution can be read in their case study.

### **About E-Zorg B.V.**

E-Zorg B.V., a KPN subsidiary, is the healthcare network for physicians, pharmacists and hospitals in the Netherlands. Founded in 2004, E-Zorg is the largest virtual private network in the country that connects healthcare institutions, professionals and patients to each other in a secure and reliable way.

For more information, please visit the official website at [www.ezorg.nl](http://www.ezorg.nl).

### **About SpamExperts**

SpamExperts solutions are tailored to (shared) web hosts, ISPS/Telcos and large organizations, as well as distributors and resellers. They offer inbound & outbound email filtering services, as well as email archiving. The services can run either within the redundant SpamExperts Hosted Cloud or on a Local Cloud directly deployed on the customer's (virtual) hardware.
